Finance & Governance

at the

MUNK
SCHOOL
OF
GLOBAL
AFFAIRS

UNIVERSITY OF
TORONTO

Back to the Future

- From one tier to two tier to one tier
- Amalgamation in 1998 resulted in a city that is “too big and too small”
- Were there cost savings?
- Did taxes decrease?

Figure 1: Fire Expenditures Per Household - 1988-2008

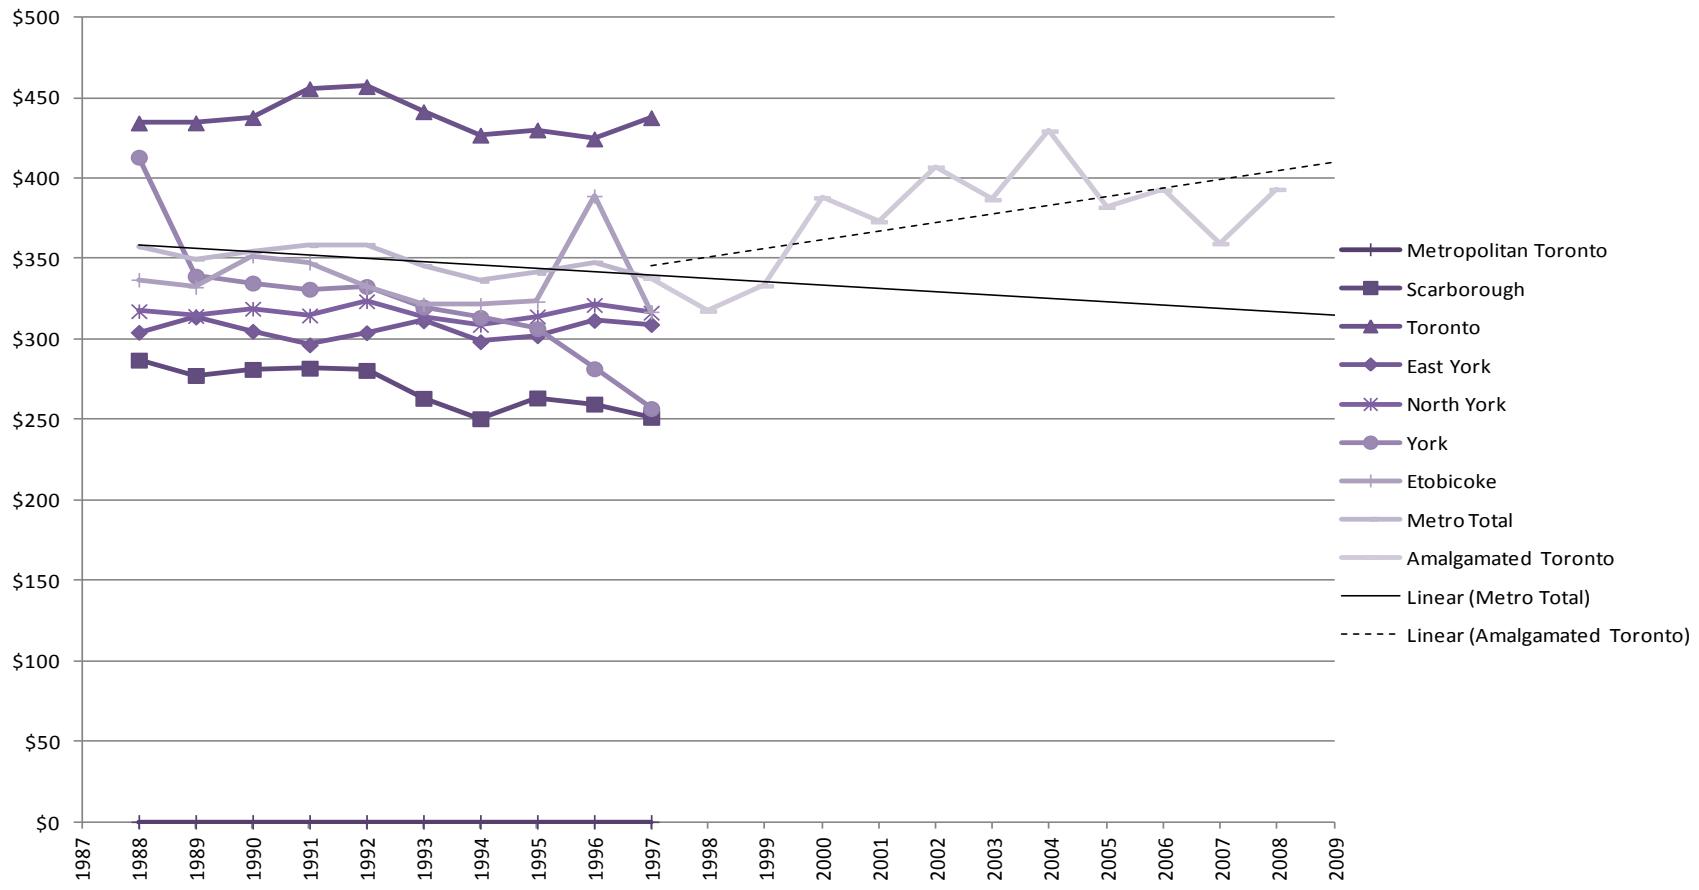

Figure 2: Garbage Collection Expenditures Per Household - 1988-2008

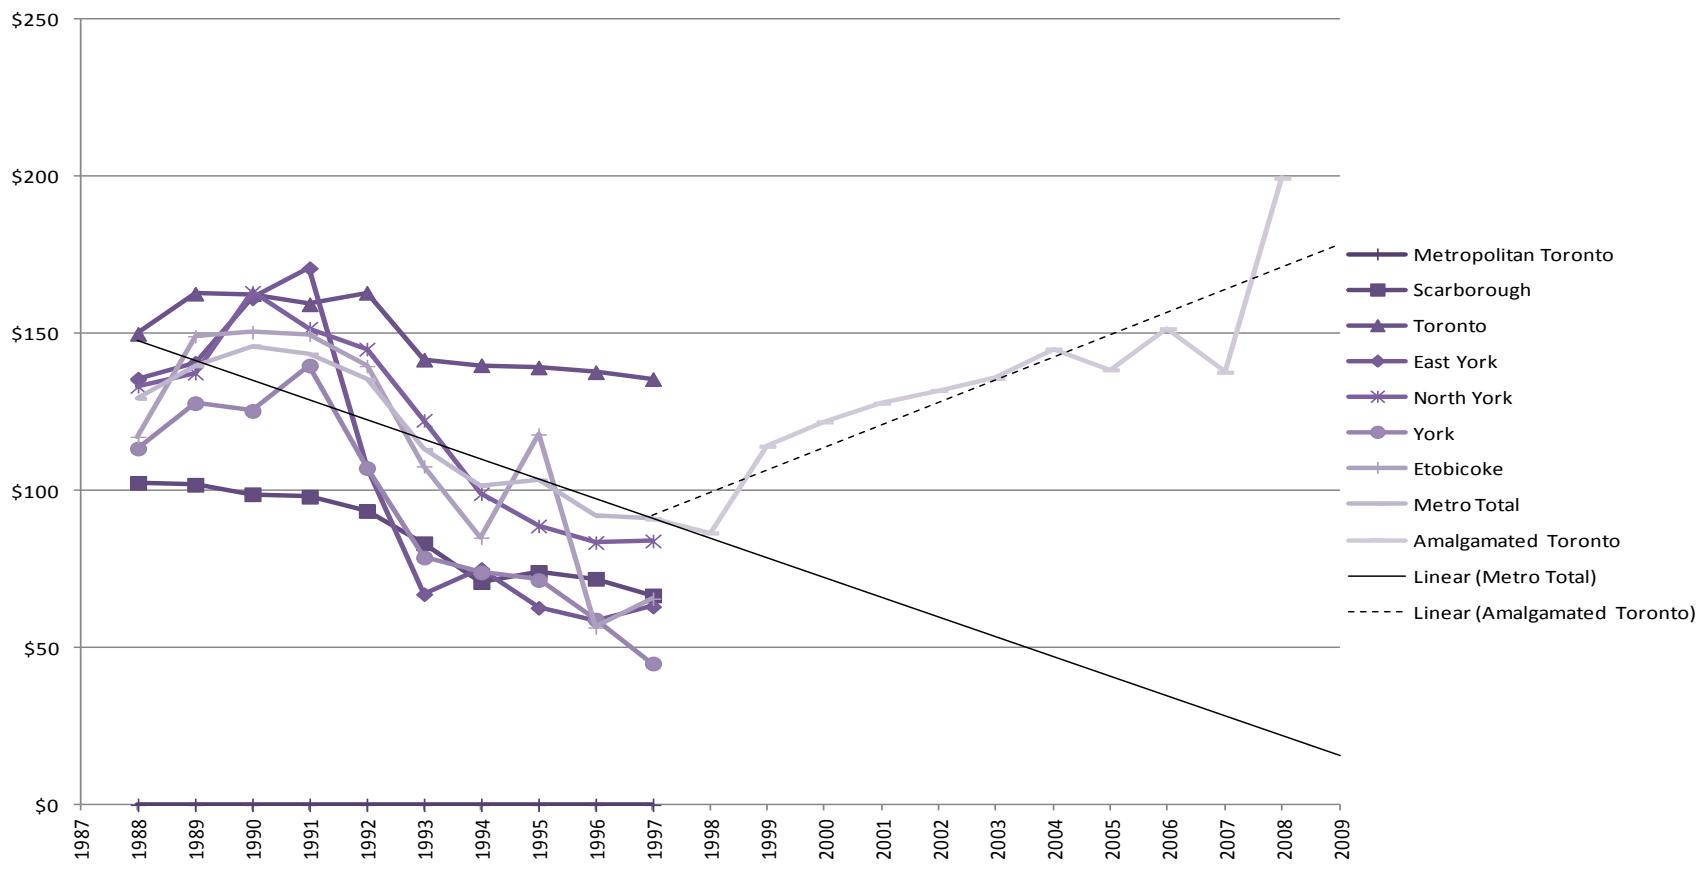

Figure 3: Parks & Recreation Expenditures Per Household - 1988-2008

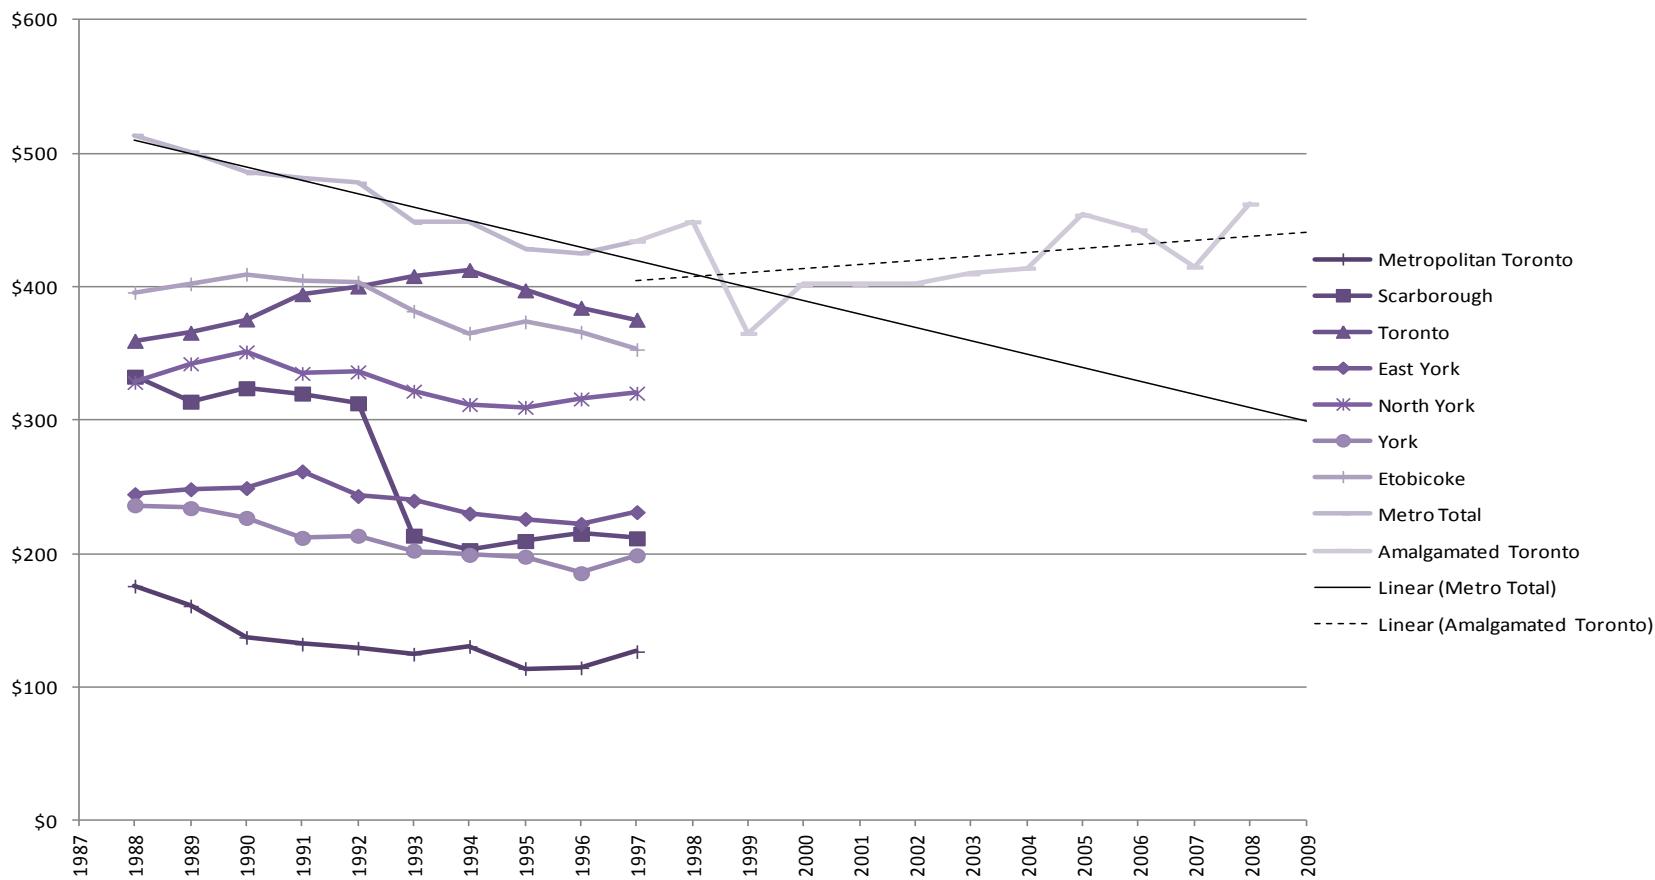

Figure 4: Libraries Expenditures Per Household - 1988-2008

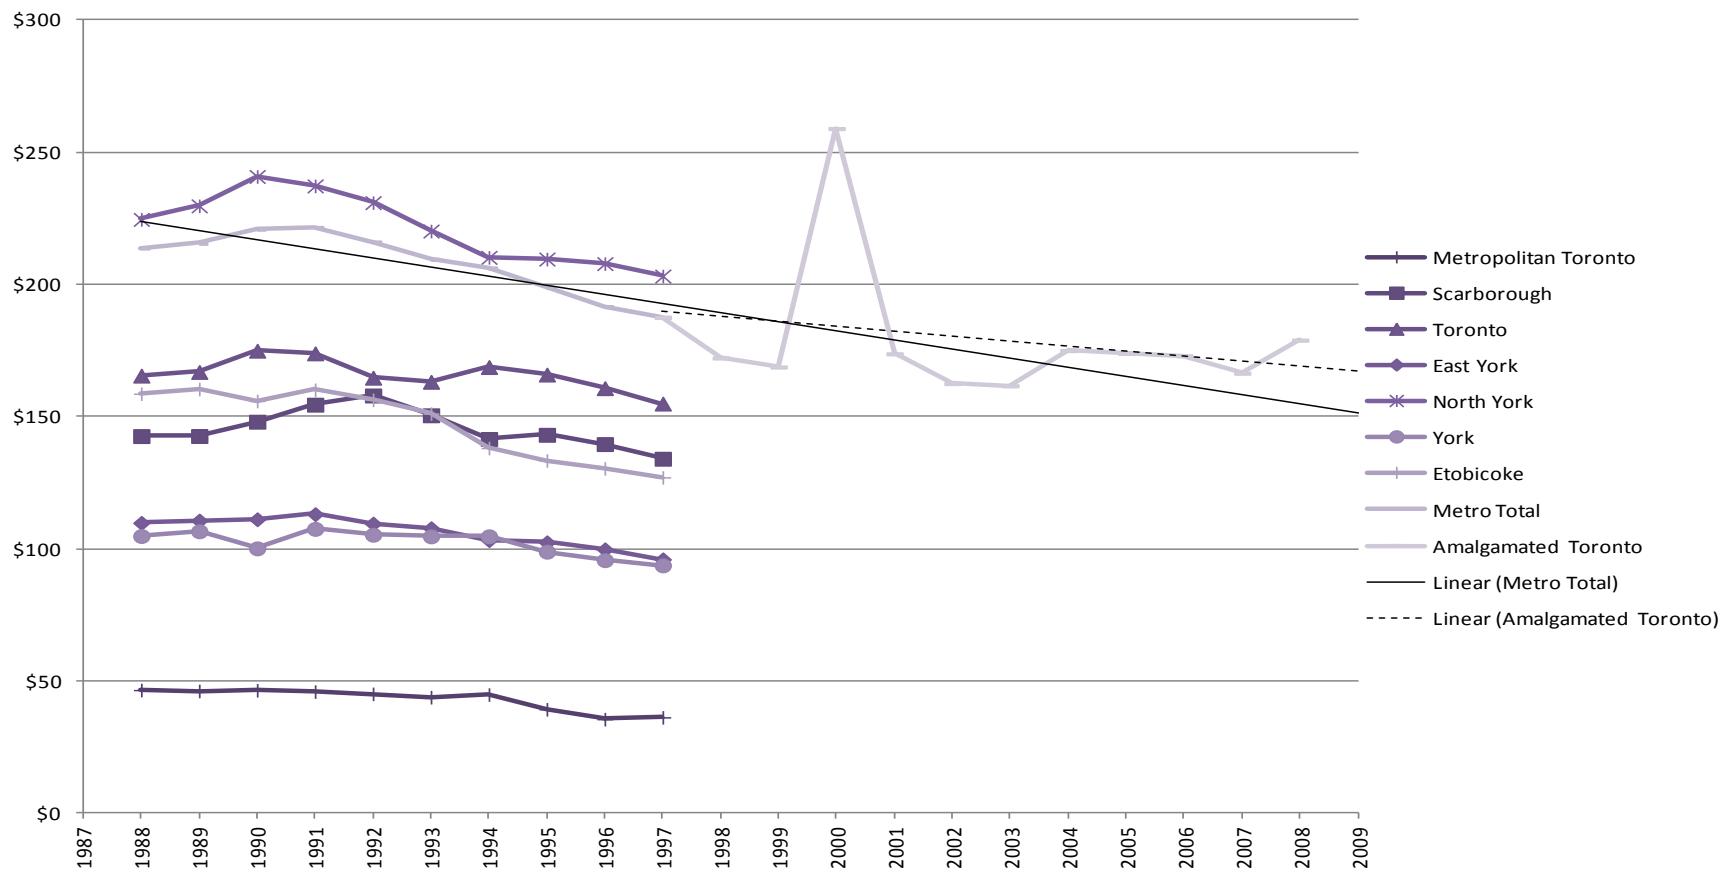

Figure 5: Residential Taxes Per Household - 1988-2008

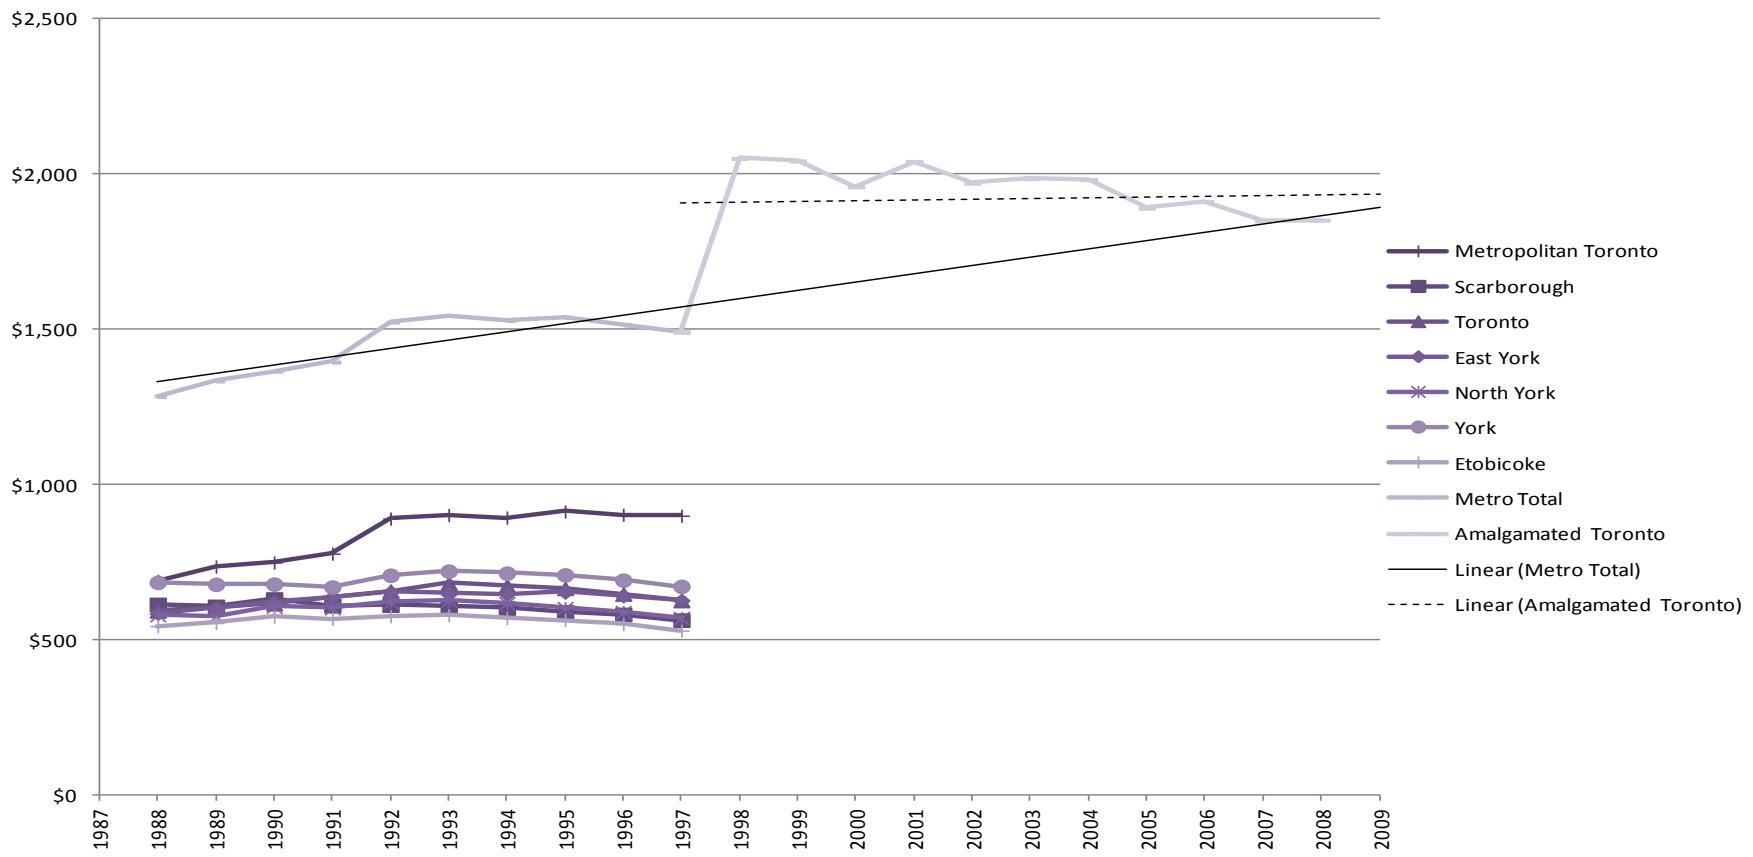

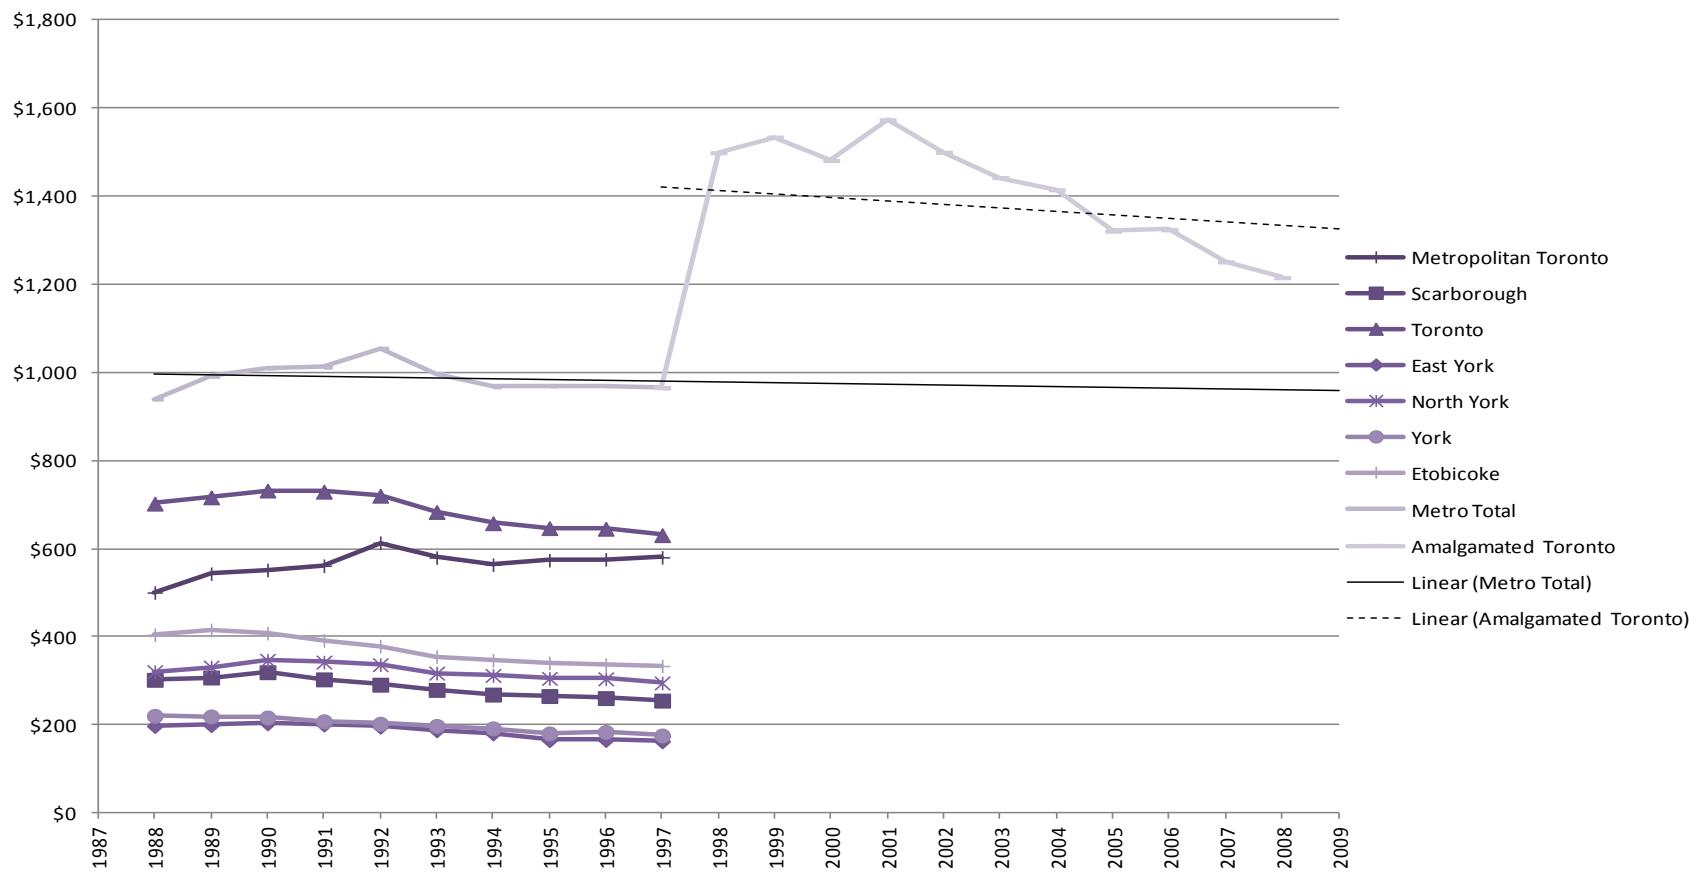

Figure 6: Business Taxes Per Household - 1988-2008

Final Observations

- Expenditures did not decrease
- Taxes decreased, especially for business properties
- Fairer sharing of the tax base
- Equalized service levels

Final Observations (cont'd)

- A city that is too big and too small
- Reduced opportunity for citizen participation
- Did not solve regional problems
